After more than 15 years of dedication in the field of fireworks Mr. Carbonneau is now organizing and producing International events throughout the world. GlobalFest is absolutely thrilled to have Mr. Carbonneau designing this year's finale show.

One of the most experienced Canadian fireworks masters; Alain Carbonneau is a passionate worker who has wandered the planet competing year after year in some of the most important fireworks events in Canada and throughout the world.

Most recently, his team was invited to represent Canada at several international fireworks competitions like the "Pyro Olympics" in Manila, Philippines in March 2004; Salvador de Bahia, Brazil in November 2005; Knokke-Heist, Belgium last August; as well as events like this spring's Symphony of Fire competition in Cape Town, South Africa. In June, Mr. Carbonneau beat the all time record of applauses at the very famous "Nuits de Feu" in Chantilly, France giving him the People's Award and the "Bouquet d'Or". We are privileged to have Mr. Carbonneau recreating portions of his award winning pyrotechnical presentation from this year's 'Nuits de Feu' in Chantilly, France.
